Customer Feedback / Comments:

"For the past 10 years now I've had yeast infections on and off. I've Also always had irritation. After for years doctors putting me on various vaginal yeast medications and the medicines not working I was fed up. I was also told that the irritation I was experiencing was in my head...I knew that it was not. So, while searching the internet looking for something that could help me I came across candidate. I thought I'd give it a try. I've been on it for 1 week...So far my irritation has really subsided! For me it is a MIRACLE!" -- Actual Consumer Comments from Amazon[dot]com
